What is Feedback?

Education is the most important part of our life. The kind of education one receives largely depends upon the kind of teachers one has. Therefore self evaluation is necessary in order to improve the quality of education in the institute. In our institute five types of feedback form are designed to collect the response from student about teachers and curriculum and also to take the opinion of alumni and parents. We also tried to know the thought of students about result and college system after the examination. The feedback form was prepared and at the end of the session full filled feedback forms were collected from the students. A feedback committee was constituted by the Principal of our college to supervise the whole process.

Why feedback is important?

Effective feedback, both positive and negative, is very helpful. Feedback provides valuable information that will be used to make important decisions. And we know that feedback is helpful only when it highlights weaknesses as well as strengths. Effective feedback has benefits for the giver, the receiver, and the wider organization.
