	प्राचीन व आधुनिक काव्य धारा के इतिहास की जानकारी व विवेचना
	नाटक , निबंध व एकांकी का अध्ययन ताकि व्याख्यात्मक व अलोचनात्मक लेखन का अभ्यास हो
	छत्तीसगढ़ी भाषा व छत्तीसगढ़ी साहित्य का इतिहास की जानकारी

DEPARTMENT	COURSE OUTCOMES
English (F.C.)	Knowledge of basic grammar for better linguistics and writing skills
	Ability of comprehension, precis writing for analytical thinking
	Knowledge of tense, synonyms, antonyms, which is useful in competitive exams
	Ability to write personal and official letter, essay
English Literature	Recognition of the culture and context of the work of literature.
	Understanding impact of American on global literature
	Knowledge of Poetry, prose and fiction of different writers.
	General background and cultural history of different period.
	Awareness about important literary work of Indian writers and their reflection on the society.

DEPARTMENT	COURSE OUTCOMES
Commerce (B.Com.)	Understanding of basic functions and tools of accountancy and financial management
	Knowledge of marketing strategies
	Ability to calculate income tax and indirect tax
	Understanding basic concepts of auditing and cost accounting
	Ability to analyze Case law studies related to business laws
M.Com.	Basic principle of micro and macroeconomics which would help them in managerial decision making process
	Exposure to accounting issues and practices such as maintenance of company accounts.
	Acquisition of accounting concepts, tools and techniques for account management.
	Achievement of skills in sampling techniques, analysis of data and research writing.
	Understanding of the conceptual framework of marketing and its applications in decision making under various environmental constraint.
	Becoming familiar with the concept and issues of international marketing which enables to analyze the foreign market environment and develop international marketing strategies for business firm.

DEPARTMENT	COURSE OUTCOMES
Chemistry	Knowledge about structure of atom, periodic properties, shapes of molecules, organometallic compounds, s,p,d block elements.
	Capability to understand basic concepts of organic reactions of different functional groups.
	Knowledge of chemical kinetics, thermodynamics, chemical equilibrium electrochemistry
	Understanding of how coordination compounds are formed and their applications and importance.
	Ability to apply the knowledge of spectroscopy, IR, UV and NMR spectroscopy, photochemistry to identification of organic compounds.
	Skill to handle reagents, chemicals and instruments with safety and care and lab skills to carry out chemical analysis.
Zoology	Understand the nature and basic concepts of cell biology, Biochemistry, Taxonomy and ecology
	Ability to Identify the characters of Phylum Annelida with its classification, anatomy of organ systems, physiology
	Information about Endocrinology, genetics, biochemistry
	Evolution and Ecology, toxicology , medical zoology
	Understanding of applications of biological sciences in Apiculture, Aquaculture, Agriculture and Medicine

DEPARTMENT	COURSE OUTCOMES
Botany	Characteristics Bacteria, viruses, fungi, lichens which gives understanding of plant diversity.
	Knowledge classification, evolution, characteristics,, life cycles of Bryophyta and Pteridophyta
	Understanding of scope and importance of Economic Botany.
	Knowledge of Plant taxonomy and pathology
	Be familiar with the concept of biotechnology and its applications.
	Knowledge of structure, synthesis and importance Proteins, enzymes, and nucleic acid.
Physics	Knowledge of gravitational and electromagnetism , forces and their applications.
	Understanding of properties of matter involving vibrations, inertia, elasticity and surface tension.
	Knowledge of laws and statistical basis of thermodynamic.
	Knowledge of properties of light and waves
	Becoming familiar with concept of relativity and quantum mechanics.
	Knowledge of solid state physics, solid state devices and electronics
Mathematics	Skill of analytical reasoning and problem solving.
	Ability to solve differential and integral calculus
	Awareness about importance of Algebra and geometry in real life problems.
	Knowledge of Limits, continuity, variation and approximation.
	Knowledge of Laplace transformation, sets and propositions.
